

IN THE ABSTRACT OF THE DISCLOSURE:

Please delete the present Abstract of the Disclosure and replace it with the following new Abstract of the Disclosure:

A rotor for a permanent magnet motor of the outer rotor type is disclosed. The rotor has a plurality of permanent magnets and is disposed around an outer circumference of a stator. The rotor includes a frame, an annular iron core combined integrally with the frame, and a plurality of insertion holes formed in the core so that the permanent magnets are inserted in the insertion holes.
